To whom it may concern:

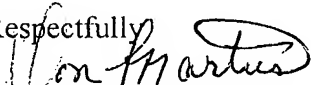

Dear Sir:

Attachments: 1. Patent improvement--- Universal coupling/ Universal Joint  
2. Original Patent Document No. 3798925

Please review the above attachments for an issuance of a patent improvement. I have only added the salient issues that depart from the original patent. I don't know any better way to do it so that you can readily understand the improvement issues. Please forgive me if it isn't in the correct format.

I would appreciate your attention to the matter.

Respectfully

  
Don Martus BSME PE
